

## Question Set 1: Question 1

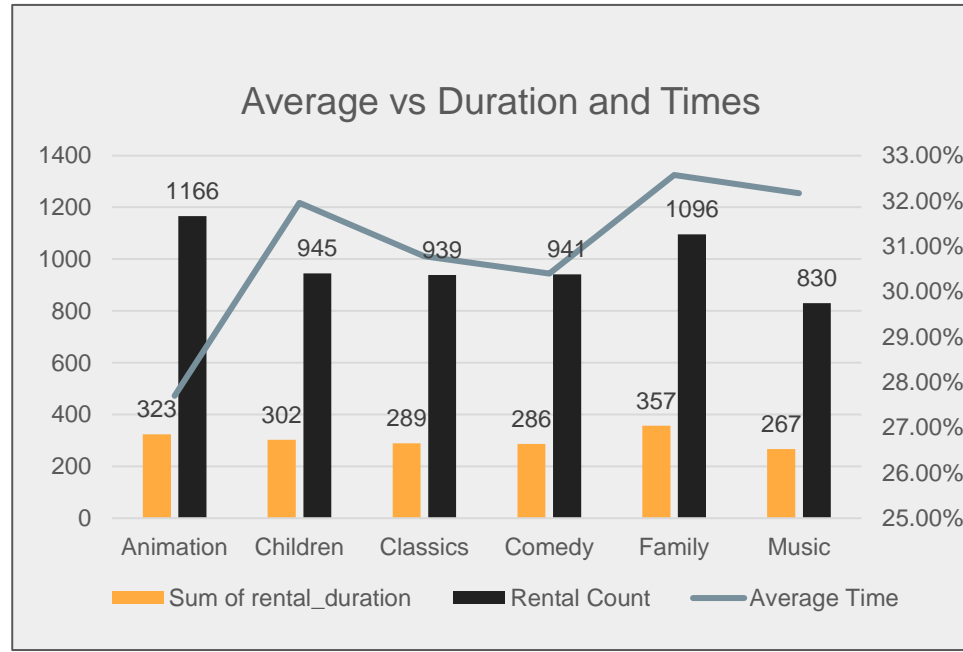

what is the number for each type of movie, and the numbers for each type

- From the visual, Animation 19.71% is the top, and Music is the less, which is 14.03%.

## Question Set 1: Question 1 & 2

what is the average rent time regarding sum of duration and rental count?

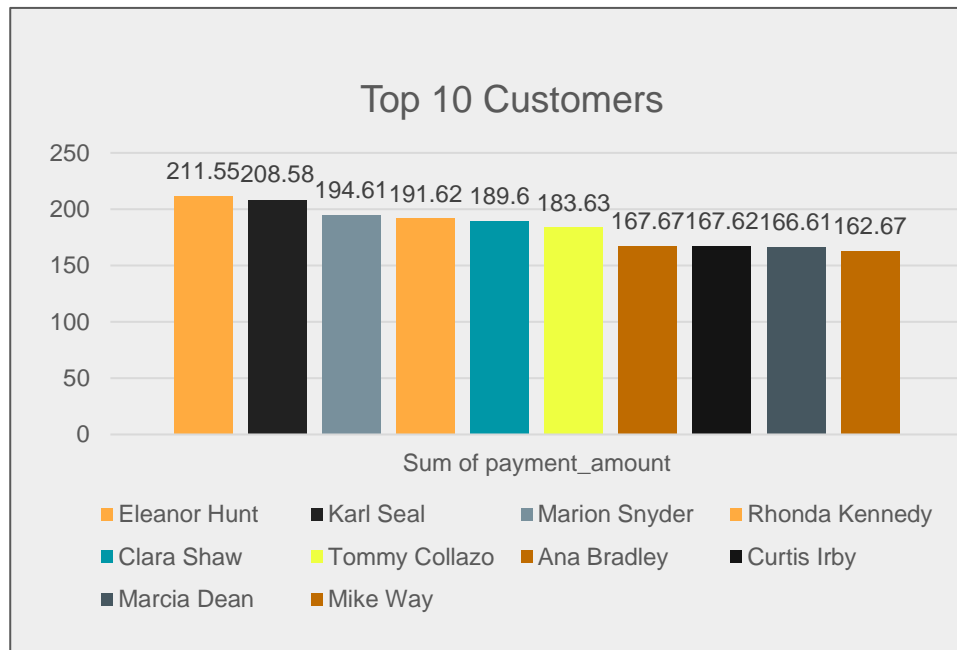

Even the second top in sum of duration is Animation, and the rental count is the top for this type.

But the average per duration is the fewest one.

Maybe the reason is animation is for children, who are not patient enough to watch from the beginning to the end.

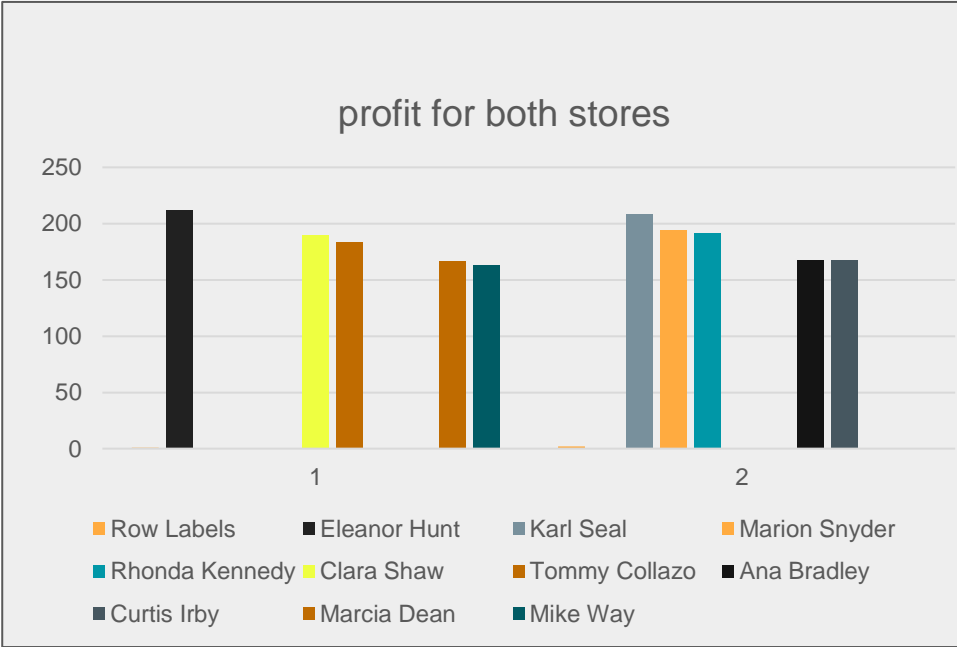

# Who are the top 10 customers to pay most of the money?

Top 10 customer who payed money.

And Hunt is the most top, 211.55 USD.

# Profit for both stores?

Total profit for store is 61312.04

- store I is 33621.42 for 326 customers
- II is 27690.62 for 273 customers

For average spend is 103.1 to 101.4 USD, which is not big gap for individual expense.
